'Where Play is a learning experience'

Emergency Closure Policy

Building Blocks Preschool and daycare would implement emergency closure in the event of an extreme circumstance. For example:

- Fire Damage
- Flooding
- Heavy Snowfall
- high levels of sickness among staff or children
- Flu pandemic
- No heating or water in the building
- A bereavement

Where possible parents and/or carers would be informed before the preschool operational hours, via text (by the preschool manager).

However, someone would also be on the grounds of Building Blocks preschool to explain to any parent that may arrive.

If emergency closure is needed whilst a session is taking place then the "Fire Evacuation Procedure" would be followed and all parents would be informed accordingly.
